HURRICANE SEASON BEGINS ON JUNE 1ST

Make a Plan.

Hurricane season starts on May 15 in the north Pacific and June 1 in the Atlantic and the Caribbean. It ends on November 30. Before hurricane season each year, make sure you and your family are prepared by [planning ahead](#).

- Write down emergency phone numbers and keep them on the refrigerator or near every phone in your house. Program them into your cell phone too.
- Prepare an [emergency supply kit](#).
- Locate the nearest shelter and different routes you can take to get there from your home. If shelter locations in your area have not been identified, [learn how to find them in the event of a storm](#).
- Pet owners: Pre-identify shelters, a pet-friendly hotel, or an out-of-town friend or relative where you can take your pets in an evacuation. Local animal shelters may be able to offer advice on what to do with your pets if you are asked to evacuate your home.

MARKET VOLATILITY

The ups and downs of the market may have you tempted to make changes to your portfolio. Yet time and again experts will tell you to never let emotions drive your investing decisions. Those feelings are, in part, because the emotional brain is bigger and more powerful than the rational brain. Go ahead and panic but don't panic about the fact that you are panicking. Give us a call. We will hold your hand and get you through it.

June is Alzheimer's & Brain awareness month

Worldwide, 55 million people are living with Alzheimer's and other dementias.

Alzheimer's disease is a degenerative brain disease and the most common form of dementia. Dementia is not a specific disease. It's an overall term that describes a group of symptoms. For more information contact the Alzheimer's association at 1-800-272-3900.
